

MANAGED OFFICE 365 BACKUPS

Don't Let Data Loss Destroy Your Business

Don't let accidental deletion, insider threats, ransomware or compliance gaps put your business at risk.

What happens when:

- Your employee accidentally deletes 6 months of project files?
- A disgruntled staff member wipes critical SharePoint documents?
- Ransomware encrypts your Teams conversations and OneDrive files?
- You need to recover a deleted email from 2 years ago for legal compliance?

Microsoft 365's Built-in Protection Has Critical Gaps

While Microsoft 365 includes basic safeguards, you're still at risk:

Limited retention periods

Most data is only recoverable for 30-93 days.

Basic insider threat controls

May not be sufficient for advanced threats or compromised accounts.

Compliance headaches

Meeting POPIA/GDPR requirements manually.

Time-consuming recoveries

IT teams spend hours on basic restore requests.

The reality:

Microsoft states clearly that backup responsibility rests with you, the data owner.

Our Managed Backup Solution: Complete Peace of Mind

Instant Recovery

Recover any file, email, or Teams chat in under 5 minutes - not hours or days.

Unlimited Retention

Keep data as long as you need - 7 years, 10 years, forever. Your choice.

Compliance Made Easy

Automatically meet POPIA, GDPR, and industry-specific retention requirements.

Total Protection

Daily automated backups of SharePoint, Teams, OneDrive, Exchange, and more.

Transparent Pricing

Only **R2.50 per protected GB** - no hidden fees, no surprises.

Real Client Success Story

"When our finance manager accidentally deleted our entire interim folder, Si Futures had it restored in 15 minutes. That folder contained months of work done in preparation for our client's annual audit. The backup service paid for itself 1000 times over in that moment."

- CFO, Bookkeeping company, Cape Town
